

To our business partners

## Russia sanctions

Dear Sir or Madame,

Following the start of the Russian attack on Ukraine, the European Union has passed further sanctions against Russia.

These include **Article 3g(1)(d) of Regulation (EU) 833/2014**, which prohibits the import and purchase of steel and iron products originating in or exported from Russia.

In order to ensure this, we have asked our suppliers to comply with and confirm compliance with the sanctions requirements.

At this time, we can confirm that our products comply with the regulation and do not contain any of the iron and steel products of Russian origin listed in **Annex XVII**.

We take compliance with these regulations very seriously. We are therefore carefully monitoring further developments.

Kind regards,

Dirk Rambow  
Head of Purchasing

Andreas Müller  
Managing Director
